# BANKOLE AYORINDE JOSEPH

## Frontend Developer

*+23480-7701-2338 | lioneleagle6@gmail.com*

---

## PROFILE

Experience building production-ready web applications using React, TypeScript, JavaScript, and modern CSS frameworks (Tailwind, SCSS). Skilled in state management (Zustand), component-driven architecture, API integration, and form validation (Formik, Yup). Proficient in performance optimization, reusable UI systems, accessibility best practices, and cross-browser compatibility. Experienced delivering scalable frontend solutions in fast-paced, collaborative environments.

---

## WORK EXPERIENCE

### Junior Frontend Developer — Closebuy (E-commerce Platform)

**Closebuy**

Duration: [January 2025 - Present]

- React · TypeScript · Zustand · Tailwind CSS · SCSS · Framer Motion · Formik · Yup
- Built a full-featured e-commerce platform (Closebuy) with product discovery, detailed product views, cart and checkout flows, dynamic quantity management, and real-time subtotal and pricing calculations.
- Implemented robust global state management using Zustand to manage cart items, selected products, quantities, discounts, persistence across pages and reloads, and synchronized UI updates.
- Developed reusable, accessible UI components (product cards, carousels, file uploads, modals, quantity controls) with smooth interactions using Framer Motion for a seamless user experience.
- Improved application stability and performance by resolving TypeScript issues, optimizing component re-renders, and enforcing clean, maintainable architecture suitable for production environments.

## Frontend Developer — 3D Product Visualization Platform
**React Three Fiber • Drei • GSAP • TypeScript**

Duration: 2023

- Developed an interactive 3D product viewer enabling users to preview products with dynamic color and size variations.
- Integrated GSAP animations to create smooth transitions and a premium user experience.
- Optimized rendering performance and structured components for maintainability in a production environment.

## Frontend Developer — Booking & Service Management System
**React • TypeScript • Tailwind CSS • Formik**

- Implemented booking, service tracking, and summary flows aligned with real business processes.
- Replaced third-party UI libraries with custom Tailwind/DaisyUI components while maintaining existing logic and design consistency.

Built validated forms using Formik and Yup to ensure accurate data collection and improved user experience.

## TECHNICAL SKILLS

- Languages & Frameworks: JavaScript, TypeScript, React, Nextjs
- State Management: Zustand
- UI & Styling: Tailwind CSS, SCSS, Framer Motion, GSAP
- 3D & Animation: React Three Fiber, Drei
- Forms & Validation: Formik, Yup
- Tools: Git, REST APIs, Figma

## EDUCATION

**Yaba College of Technology**

2015 - 2017

ND in Computer Science

**University of Lagos**

2017 - 2021

Bachelor of Science, Computer Science

## CERTIFICATIONS

U React Js Crash Course

U UI/UX Design

in UI/UX Research and Survey Methodology
